MasterFormat® Numbers & Titles
February 2015

MasterFormat is the specifications-writing standard for most commercial building design and construction projects in North America. It lists titles and section numbers for organizing data about construction requirements, products, and activities. By standardizing such information, MasterFormat facilitates communication among architects, specifiers, contractors and suppliers, which helps them meet building owners' requirements, timelines and budgets.

The numbers and titles presented here are identical to the numbers and titles contained in the MasterFormat® 2014 publication available for purchase from the Construction Specifications Institute (CSI) and Construction Specifications Canada (CSC).

MasterFormat numbers and titles are intentionally structured for anticipated growth and expansion in the future. CSI and CSC encourage all interested parties to provide input using the "Propose a Revision" link on http://www.masterformat.com/revisions/ so that as the built environment evolves so can MasterFormat. Updates to MasterFormat are made annually.

To learn more about MasterFormat training, certification and local chapter information from CSI go to http://www.csinet.org/ or from CSC go to http://www.csc-dcc.ca/. For information about licensing use of MasterFormat for commercial or educational purposes, contact CSI at http://www.csinet.org/, csi@csinet.org or by calling 800-689-2900.
